TRINMAX®

FOR AP TEAMS

Leave manual entry behind.

Save 5 minutes every 15 seconds

Automate invoice processing with ScanNmax, fully integrated with Maximo Application Suite (MAS). ScanNmax captures invoice data, performs a three-way match, and populates invoice lines.

Take automation further

Auto-create ON

Your defined criteria are met? The invoice creates itself.

- PO Matched
- Receiving Complete
- Business Rules Satisfied
- Safety Net Evaluation Passed

Auto-create OFF

Prefer to review every invoice?
Keep it turned off.
Review and click *Create*.

★★★★★
Customer KPIs

24 HOURS
to process invoices after receipt, down from 15+ days.

260 INVOICES
managed by one person compared to 219 by three.

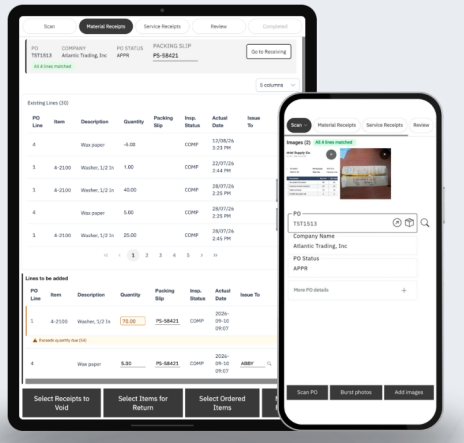

ON TIME
payments, eliminating a 24-day average delay.

FOR RECEIVING TEAMS

Snap it. Review it. Receive it.

Take Control of Your Goods Receipt With ScanNmax Receiving

Go from delivery to receipt with fewer manual steps. Photograph the packing slip and ScanNmax finds the matching purchase order, populates the lines, and lets you review, adjust, receive, and inspect, all in one place.

1. Photograph the packing slip
2. Review prefilled lines
3. Adjust as needed
4. Receive and inspect
